

Independent assessment & therapy services for children & adolescents

Therapy in Praxis Limited is a multidisciplinary paediatric therapy practice specialising in providing Speech and Language Therapy, Occupational Therapy and Physiotherapy for children and adolescents aged 0-19 years.

We offer specialist interventions using neurodevelopmental approaches [Bobath, PNF] for Cerebral Palsies, Acquired & Traumatic Brain Injuries, Muscular Dystrophies, Spina Bifida, Sensory Integration, Biomechanics, Autism [ASD, Asperger], ADHD & ADD, Physical Disabilities including Spinal Injuries, Dyspraxia & Developmental Co-ordination Disorder, Chromosomal Anomalies & Congenital Abnormalities.

Assessment, direct intervention and management advice are provided on a nationwide as well as local basis. The clinic is well equipped with specialist professional training facilities; rehabilitation gyms, sports and highly specialist sensory integration gyms and activity rooms, a friendly parent's room, observation windows and quiet clinic rooms.

We support case management, complex commissioning and medico-legal / clinical negligence claims as well as Special Educational Needs Tribunal .

We believe that a child-centered service is best accomplished through collaboration with the child's complete team. We combine this collaboration with best practice standards and current research to provide exceptional care.

As well as in-house sessions the team provide regular outreach to schools, social care facilities and families for children with a wide range of learning, communication and physical disabilities.

We believe that a child centered service is best accomplished through collaboration with the child's complete team. We combine this collaboration with best practice standards and current research to provide exceptional care.

**Therapy in Praxis offers no-obligation visits to the centre.
